"I've learn't that people will forget what you said, people will forget what you did, but people will never forget how you made them feel." - Maya Angelou

Feeling amazed is a sensation that every single person on the planet has the potential to experience. A captivating universal language that unites us all. Since 2012, HYPERVSN has been mesmerizing audiences, not only taking digital communication to new heights, but taking it to new dimensions!

HYPERVSN
INTEGRATED 3D HOLOGRAPHIC DISPLAY SYSTEM

HYPERVSN is a fully integrated system that allows you to create, manage and display 3D content, perceived as holograms floating in mid-air. The system uniquely combines HYPERVSN's revolutionary hardware with the scalability of proprietary holographic software into jaw-dropping 3D visuals. Life is in 3D; your branding solutions should be too.

THE FUTURE OF 3D HOLOGRAPHIC TECHNOLOGY
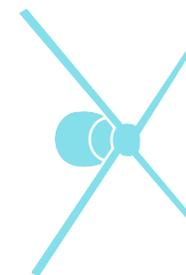

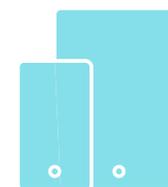

MODEL M

NEW MODEL L

80% more image

HYPERVSN Device

Ground-breaking 3D holographic display, generated by four individual LED rays and displaying visuals up to 56cm in size - now with the new HYPERVSN Solo L model, providing visuals up to 75cm in size.

Solo App

The real beauty of HYPERVSN not only lies in its unprecedented hardware, but also in its fully integrated system, effortlessly managed through Solo App. (Available in the iTunes App Store™ and Google Play™ Store). Solo App allows for the uploading of playlists, Device configuration and system-wide control.

Cloud CMS

Cloud-based content management platform allows you to remotely upload your 3D content and manage all of the Devices in your HYPERVSN network, from anywhere in the world!
