HYPERVSN

INTEGRATED 3D HOLOGRAPHIC DISPLAY SYSTEM

HYPERVSN is a fully integrated system that allows you to create, manage and display 3D content, perceived as holograms floating in mid-air. The system uniquely combines HYPERVSN's revolutionary hardware with the scalability of proprietary Pro Management Software into awe-inspiring 3D holographic visuals.

HYPERVSN Hardware

- Single-unit (**Solo M**) Device displaying 3D holographic visuals up to 56cm in size.
- Single-unit (**Solo L**) Device displaying 3D holographic visuals up to 75cm in size.
- Masterbox Designed to synchronize and connect multiple stand-alone Solo Devices into a HYPERVSN Wall.

Pro Management Software

- Local single-unit Device management.
- Brand new Wall functionality.
- Scalable Device management via the Internet.

Holographic 3D content

- Rich hub of bespoke, ready-made, 3D HYPERVSN content.
- HYPERVSN 3D Studio transforms 2D content into customized 3D visuals without any specific design skills required.

HARDWARE

HYPERVSN's hardware-based products are manufactured in Europe, utilizing only the highest-quality components available.

Each HYPERVSN product is equipped with exclusive connectivity options, seamlessly integrating individual Devices into one 3D Holographic Display System.

Highest definition 3D visuals

Lightweight & energy efficient

12-Month warranty

Scalable for any project

SOFTWARE

Set no boundaries with HYPERVSN's advanced 3D software, designed to provide full-system control over immersive media campaigns, manage devices and deliver the "WOW" effect.
